Marria Pooya

As time marches on, our youthful looking faces and bodies get left behind. Or so it was before Marria Pooya opened The Greenwich Medical Skincare and Laser Spa specializing in non-surgical procedures that offset signs of aging...lines, wrinkles, skin discoloration, loose skin, excess fat, hair loss and unwanted hair. Most requiring no downtime.

Having treated over 10,000 patients over eleven years, Marria's practice is among the top 3 percent of facilities administering BOTOX and fillers used in the elimination of facial lines and wrinkles. The Greenwich Medical Spa is also among the top one percent performing Ultherapy to lift and tighten skin, and has surpassed 4,000 CoolSculpting body-shaping procedures.

The Greenwich Medical Skincare and Laser Spa was voted Best in Cosmetic Dermatology and Skincare in Fairfield County.
